CITIZENSHIP OF THE NEW WORLD ORDER

Examples of slides

through Academies of Sciences

- Proceeds from investments by the Sovereign entity similar to a Sovereign Wealth Fund in Galactica.com ecosystem that holds a large % of the entire \$GNET supply.
- Citizen-only dApps: Use Citizen-only dApps, benefit from Citizen-only incentives and more.

In Nation states, inflation is a hidden tax on society's less affluent classes. In Galactica.com inflation is a way to fund innovation that is then 'distributed' by means of UBI across all Citizens.

The distribution of UBI is merit-driven. The more value a Citizen contributes to the Network, the higher one's UBI share.

Galactica Network Citizenship (GNC) Explained

© COPYRIGHT GALACTICA NETWORK 2023

YVESIM BARRER / UNIZO / UNIZO

Galactica.com is one of the trailblazers in the domain of Cypher States

— blockchain native Supranational organisations capable of all the political, economic and social functions of Nation States.

Superior in its technological design, the **Cypher State** will transcend nation states in transparency, efficiency and sheer network size.

With the advent of Galactica.com an old dream of blockchain nations will finally have a holistic toolbox to self-organize and thrive.

But any nation is first and foremost, its citizens. ... right?

3 Right to Galactica UBI

UBI or Universal Basic Income is distributed every block across all Citizens of Galactica.com. The distributions are made in gUBI which is a token backed by a diversified portfolio of assets. Assets include but are not limited to:

- An allocation of \$GNET inflation (Galactica.com coin) defined by Parliament.
- IP royalties from public goods projects funded on Galactica.com (through Academies of Sciences).
- Proceeds from investments by the Sovereign entity similar to Sovereign Wealth Fund in Galactica.com ecosystem that holds a large % of the entire \$GNET supply.

7 How Can I Get a GNC?

GNC can be earned during the DevNet or TestNet or purchased during the MainNet auctions (ICA/CCA). Various campaigns offer opportunities to earn GNCs based on contributions to the ecosystem.

Wave 1 can be earned during the DevNet and TestNet exclusively, while Wave 2 up to the very inception of the MainNet.
